

AAFP POLICY REGARDING DISCLOSURE BY AAFP WORKSHOP FACULTY
OF FINANCIAL AND OTHER RELEVANT INTERESTS

AAFP and workshop instructors disclose to the audience at the outset of the workshop whenever they have a financial interest in any product (a test, competing test, book, or competing book) or service (e.g., supervision, test scoring program) that is to be discussed during a workshop.

If there is any commercial support for a CE program, presentation, or instructor, or any other relationship between the instructor and a company relevant to an AAFP CE workshop that could reasonably be construed as a duality of interest, AAFP and the workshop instructor inform the workshop participants of such at the outset of the workshop. A relevant duality of interest includes employment, membership on the board of directors or any fiduciary relationship, membership on a scientific advisory panel or other standing scientific/medical committee, ownership of stock, receipt of honoraria or consulting fees, or receipt of financial support or grants for research. Company is defined as a for-profit concern engaged in the development, manufacture, or sale of any product or service related to the topic of the workshop.
